2023 INDIANA ACADEMIC STANDARDS
SOCIAL STUDIES

GRADE 7

Indiana Academic Standards Context and Purpose

Introduction

The Indiana Academic Standards for Grade 7 Social Studies are the result of a process designed to identify, evaluate, synthesize, and create high-quality, rigorous learning expectations for Indiana students.

Pursuant to Indiana Code (IC) 20-31-3-1(c-d), the Indiana Department of Education (IDOE) facilitated the prioritization of the Indiana Academic Standards. The standards are designed to ensure that all Indiana students, upon graduation, are prepared with essential knowledge and skills needed to access employment, enrollment, or enlistment leading to service.

All standards are required to be taught. Standards identified as essential for mastery by the end of the grade level are indicated with shading and an “E.” The learning outcome statement for each domain immediately precedes each set of standards.

What are the Indiana Academic Standards and how should they be used?

The Indiana Academic Standards are designed to help educators, parents, students, and community members understand the necessary content for each grade level, and within each content area domain, to access employment, enrollment, or enlistment leading to service. These standards should form the basis for strong core instruction for all students at each grade level and content area. The standards identify the minimum academic content or skills that Indiana students need in order to be prepared for success after graduation, but they are not an exhaustive list.

While the Indiana Academic Standards establish key expectations for knowledge and skills and should be used as the basis for curriculum, the standards by themselves do not constitute a curriculum. It is the responsibility of the local school corporation to select and formally adopt curricular tools, including textbooks and any other supplementary materials, that align with Indiana Academic Standards. Additionally, corporation and school leaders should consider the appropriate instructional sequence of the standards as well as the length of time needed to teach each standard. Every standard has a unique place in the continuum of learning, but each standard will not require the same amount of time and attention. A deep understanding of the vertical articulation of the standards will enable educators to make the best instructional decisions. These standards must also be complemented by robust, evidence-based instructional practices to support overall student development. By utilizing strategic and intentional instructional practices, other areas such as STEM and employability skills can be integrated with the content standards..

Content-Specific Considerations

The Indiana Academic Standards for Grade 7 Social Studies consist of four domains: History, Civics and Government, Geography, and Economics. The skills listed in each domain indicate

what students should know and be able to do in Social Studies by the end of the grade level. Examples, when provided within the context of a standard, are intended to help illustrate the conveyed meaning of the standards and offer suggestions for instructional focus. Any examples listed for a standard are not designed to be limiting or otherwise exclusive.

Acknowledgments

The Indiana Department of Education appreciates the time, dedication, and expertise offered by Indiana's K-12 educators, higher education professors, representatives from business and industry, families, and other stakeholders who contributed to the development of the Indiana Academic Standards. We wish to specially acknowledge the committee members, as well as participants in the public comment period, who dedicated many hours to the review and evaluation of these standards designed to prepare Indiana students for success after graduation.

Grade 7 Social Studies

Standards identified as essential for mastery by the end of the grade level are indicated with gray shading and an “E.” The learning outcome statement for each domain immediately precedes each set of standards.

History	
Learning Outcome: Students examine the major movements, events, and figures that contributed to the development of Africa, Asia, and the Southwest Pacific from ancient civilizations to modern times by examining religious institutions, trade and cultural interactions, political institutions, and technological developments.	
7.H.1	Identify and explain the conditions that led to the rise of early river valley civilizations and evaluate how the achievements in art, architecture, written language, and religion of those civilizations are related to their respective forms of government and social hierarchies. (E) Examples: River civilizations include Nile River Valley (ancient Egypt), Tigris and Euphrates rivers (Mesopotamia), Indus River (India/Pakistan), and Huang He River (ancient China).
7.H.2	Describe, compare, and contrast the historical origins, central beliefs, and spread of major religions. (E) Examples: Hinduism, Buddhism, Sikhism, Judaism, Christianity, and Islam.
7.H.3	Assess the development of sub-Saharan civilizations in Africa and the importance of political and trading centers to the spread of resources, disease, and culture.
7.H.4	Describe the importance of the Silk Road on the histories of Europe, Africa, and Asia. (E)
7.H.5	Explain the influence of Muslim civilization on the growth of cities, the development of trade routes, political organizations, scientific and cultural contributions, and the basis for the early banking system to other cultures of the time. (E)
7.H.6	Compare and contrast the institution of slavery in its various forms in Africa, Asia, and the Southwest Pacific, and analyze the impact slavery had on different civilizations.
7.H.7	Trace the rise, spread, and influence of the Mongols. Examples: Yuan dynasty, Marco Polo, Black Death, feudalism.
7.H.8	Describe the dynastic cycle and the cultural and technological contributions of major Chinese dynasties (Zhou, Qin, Han, Tang, Song, and Ming). (E) Examples: Zhou - established Feudalism leading to Warring States Period, Mandate of Heaven, start of Confucianism, Daoism, and Legalism; Qin - “China”, Terracotta Army, Great Wall; Han - Silk Road starts, paper & compass, merit-based jobs; Tang - gunpowder, woodblock printing, clocks & porcelain; Song - paper money, moveable type; Ming - international trade/isolation, porcelain arts.
7.H.9	Demonstrate how Japan became increasingly independent of earlier Chinese influences and developed its own political, religious, social, and artistic traditions. Examples: feudalism, shogunate court life, samurai culture.

7.H.10	Analyze worldwide voyages of exploration and discovery by considering multiple perspectives of various people in the past by demonstrating their differing motives, beliefs, interests, hopes, and fears. ● Examples: Voyages of the Ming dynasty, and Ibn Battuta.
7.H.11	Explain the reasons for European colonization of Africa, Asia, and the Southwest Pacific and analyze the long- and short-term impact that colonization and imperialism had on the social, political, and economic development of these societies from both European and indigenous perspectives. (E)
7.H.12	Analyze the Japanese imperial period (1868-1945), including Japan's involvement in World War II.
7.H.13	Identify and explain the significance of historical events in the Middle East since the end of World War II. ● Examples: the partition of the British Palestine Mandate (1947), the Suez Canal crisis (1956), the Arab-Israeli Six Day War (1967), the formation of Organization of Petroleum Exporting Countries (OPEC, 1960), the Iranian Hostage Crisis (1979), the Gulf Wars (1991, 2003), the War on Terrorism (2001- present), Arab Spring (2011- present).
7.H.14	Identify and explain recent conflicts and political issues between nations or cultural groups and evaluate the solutions that different organizations have utilized to address these conflicts. (E)
7.H.15	Compare and contrast perspectives of history in Africa, Asia, and the Southwest Pacific using fictional and nonfictional accounts, including visual, literary, art, and musical sources.
Civics and Government	
Learning Outcome: Students trace the development of different forms of government in different historical eras and compare various contemporary political structures in Africa, Asia, and the Southwest Pacific in terms of power, approach to human rights, and the roles of citizens.	
7.C.1	Compare, contrast, and evaluate the different routes to independence from colonial rule taken by countries in Asia, Africa, and the Southwest Pacific. (E) ● Examples: Australia, India, South Africa.
7.C.2	Compare and contrast historical and contemporary governments in Africa, Asia, and the Southwest Pacific. ● Examples: Japan, North Korea, India, South Africa, China.
7.C.3	Describe how major forms of governments of Japan, North Korea, India, South Africa, and China currently protect or violate the human rights of their citizens. (E)
Geography	
Learning Outcome: Students use technology and grid systems to identify and categorize places (physical, cultural, countries, large cities), major geographic characteristics (human and physical), and regions in Africa, Asia, and the Southwest Pacific. They use geographic skills, perspectives, and technologies to analyze relationships within and between these regions and the rest of the world.	
7.G.1	Formulate a broad understanding of the location of countries within Africa, Asia, and the

	Southwest Pacific. (E)
7.G.2	Describe and compare major cultural characteristics of regions in Africa, Asia, and the Southwest Pacific.
7.G.3	Use historical maps to identify changes in Africa, Asia, and the Southwest Pacific over time. (E)
7.G.4	Identify major physical characteristics of regions of Africa, Asia, and the Southwest Pacific, such as deserts, basins, plains, mountains, and rivers, and describe their formation.
7.G.5	Compare and contrast the distribution of natural resources in Africa, Asia, and the Southwest Pacific; describe how natural resource distribution can impact the wealth of a country. (E)
7.G.6	Describe the limitations that climate and landforms place on land or people in regions of Africa, Asia, and the Southwest Pacific.
7.G.7	Identify current trends and patterns of rural and urban population distribution in selected countries of Africa, Asia, and the Southwest Pacific, and analyze the causes for these patterns. • Examples: life expectancy, income, literacy rate, industry, education, natural resources, climate.
7.G.8	Provide examples of ethnocentrism and how this attitude affected the relationships between different peoples in Africa, Asia, and the Southwest Pacific.
7.G.9	Analyze current issues and developments related to the environment in selected countries in Africa, Asia, and the Southwest Pacific.
Economics	
Learning Outcome: Students examine the influence of physical and cultural factors upon the economic systems found in countries of Africa, Asia, and the Southwest Pacific, with an emphasis on scarcity, incentive, opportunity cost, and specialization.	
7.E.1	Explain how voluntary trade benefits countries and results in higher standards of living in Africa, Asia, and the Southwest Pacific. (E) • Examples: Voluntary trade results in increased production, increased consumption of goods and services, and lower prices for consumers.
7.E.2	Illustrate how international trade requires a system for exchanging currency between and among countries.
7.E.3	Identify ways that societies deal with helpful and harmful externalities in Africa, Asia, and the Southwest Pacific. (E) • Examples: government support of public education and governments taxing or regulating pollution.
